

The Org Health Accelerator

The Org Health Accelerator empowers your leaders with coaching, consulting, and tools to improve team effectiveness, productivity, and operating results. This is designed to be achieved in 12 months.

Key:

= Leadership Team Meetings = Reinforcement Activities

Month 0	Month 1	Month 2	Month 3	Month 4	Month 5	Month 6	Month 7	Month 8	Month 9	Month 10	Month 11	Month 12

Your team will achieve the following outcomes with this calendar of events:

Discipline 1: Build a Cohesive Leadership Team. This includes mastering key behaviors that promote alignment and teamwork. These behaviors are trust, conflict, commitment, accountability, and results.

Discipline 2: Create Clarity. This aligns your team on four areas of clarity needed by your broader team and stakeholders: purpose, behaviors, roles, and priorities. The output of this work is a “playbook” that can be shared throughout the organization.

Discipline 3: Over-Communicate Clarity. We will build your team’s toolbox to galvanize stakeholders and employees. This will make them stronger change leaders who can activate projects more effectively.

Discipline 4: Reinforce Clarity. To ensure success with the team’s overall plan and strategy, your leaders will better leverage meetings to reinforce goals and expectations. In addition, we will build their toolbox for 1:1 feedback and performance management.
